RMSPUMPTOOLS ANNOUNCES NEW APPOINTMENTS

An Aberdeen-headquartered company has announced a number of new appointments as a result of a recent merger.

The artificial lift ESP applications specialist RMSpumptools Ltd - which was created earlier this year with the merger of Pumptools and RMS - has strengthened its specialist team in both Aberdeen and Yorkshire with six new team members.

Joining the team in Aberdeen is Jonny Murty, design engineer, who brings four years industry experience to the job, while Kevin Fotheringham, has been appointed sales engineer. Kevin will primarily be responsible for RMSpumptools' growing presence in the North Sea and European sectors.

Bringing 21 years experience in the ESP industry, Peter McGeoch will be taking up the role of senior project manager, handling some of the company's larger sales projects and clients.

Lisa Warren has joined the company as production planner, with Julia Dale concluding the new appointments in Aberdeen, taking on the role of purchase ledger control.

Barry Yates, will be joining the team at the company's Malton-based manufacturing site as QHSE manager. Within his role Barry will be responsible for quality assurance, health and safety and environmental responsibility at both Aberdeen and Malton.

Stan Foster-Rooke, RMSpumptools' managing director, is pleased to welcome the new recruits to the team.

He said: "With the recent merger, our product range has diversified, providing further integrated technological solutions to our international client base.

"Our integration has been seamless and we have continued to ensure our clients receive the best possible service. I am confident our new team members will be valuable additions to our existing teams and I look forward to building on the success both companies have enjoyed to date."

RMSpumptools currently has regional offices throughout the world including Thailand, Oman, Ecuador, Colombia, USA and Australia.
